About SIHL

The first of its kind in Canada, the Saskatchewan Institute of Health Leadership (SIHL) is an initiative of the Centre for Continuing Education, University of Regina in partnership with the:

- College of Physicians and Surgeons of Saskatchewan
- Registered Psychiatric Nurses Association of Saskatchewan
- Saskatchewan College of Pharmacists
- Saskatchewan Registered Nurses' Association
- Saskatchewan Association of Licensed Practical Nurses
- Ministry of Health

The aim of the Institute is to bring together professionals from all disciplines and all levels within the healthcare system to foster leadership potential, skills and the creation of a leadership community that works together to promote, support and sustain good health.

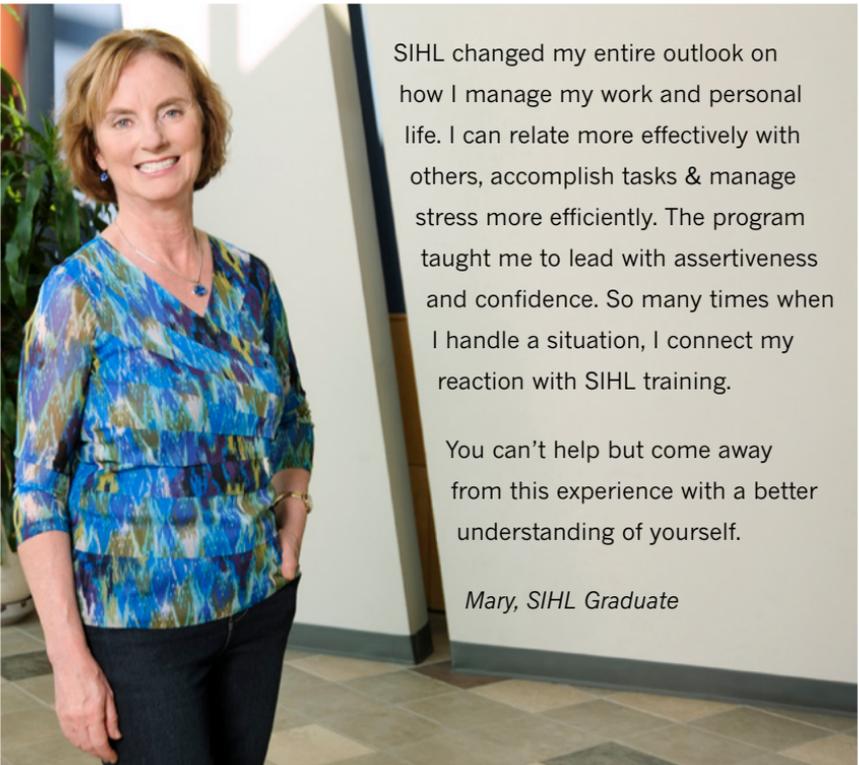

SIHL includes professionals from all disciplines and all levels within the healthcare system. The Institute focuses on leaders of today and leaders of tomorrow.

The Saskatchewan Institute of Health Leadership supports the goals of the provincial government by:

- building leadership and professional development within an interdisciplinary context
- ensuring a new generation of skilled healthcare leaders
- cultivating a community of leaders with patient first focus

This five month program begins in October 2017 and will conclude in April 2018. A five-day Opening Retreat will take place in Regina, Saskatchewan, October 23-27, 2017 with SIHL Course Presenters and Facilitators. A two-day Project Retreat will take place April 19-20, 2018.

SIHL changed my entire outlook on how I manage my work and personal life. I can relate more effectively with others, accomplish tasks & manage stress more efficiently. The program taught me to lead with assertiveness and confidence. So many times when I handle a situation, I connect my reaction with SIHL training.

You can't help but come away from this experience with a better understanding of yourself.

Mary, SIHL Graduate

About the Program

Registration is limited to 30 students per course and will include participants with diverse healthcare backgrounds.

The Format

The five month program includes:

- opening and project retreats
- lectures and workshops
- team projects focusing on six core competency areas
- personal leadership challenge
- teleconferences/webinars involving discussions with leaders and content experts
- access to coaches and Master Facilitator based in the healthcare system

The program begins with a five-day retreat October 23-27, 2017 at the Centre for Continuing Education, University of Regina.

During the Retreat, participants will:

- engage in participatory presentations delivered by expert healthcare leaders
- develop a project proposal to further leadership skills
- meet participants, course presenters and coaches from diverse areas of the healthcare sector

The program concludes with a two-day project retreat April 19-20, 2018 with:

- interactive panel discussions
- team project presentations
- Graduation Ceremony and certificate presentation

Program Content

Leadership Skills & Core Competencies

Based on contemporary leadership theory within a health context the curriculum is designed to develop skills and competencies of leadership in 6 core areas:

Life Balance & Personal Development

- Understanding your style
- Lifelong learning
- Personal development
- Time and stress management
- Staying motivated

Visioning & Planning

- Decision making framework
- Scenario building
- Creating a shared vision
- Strategic thinking
- Environmental scanning

Conflict & Collaboration

- Conflict Resolution/Interest based negotiation
- Team building
- Facilitation
- Communication (interpersonal, inter-organizational, presentations, media, written and verbal)

Policy & Politics

- Political process
- Advocacy
- Policy development/Informing practice and vice versa
- Ethics
- Negotiation
- Partnership development

Systems Thinking

- Quality Improvement
- Change Management
- Risk Management

Community & Culture

- Workforce diversity
- Defining and understanding community including the impact of Aboriginal heritage and culture
- Demographics
- Social structure and change
- Population health and primary health care

These competencies will be developed and enhanced through a variety of instructional methodologies. Presenters at the Institute, each of whom is an acknowledged leader and educator, will lead participants through these competencies during the October Retreat.

The Master Facilitator will continue providing support and direction as requested by participants during the five month program. Coaches will create a network of sharing and learning amongst themselves to develop and practice their own skills within a peer review context.

Unique Program Features

- Leadership theory and practice within a health context
- Ongoing application of models, concepts and theories through group work
- Interdisciplinary focus
- A cohort model
- Teamwork
- Practical application of learning
- Leadership and community development
- Networking
- Varied delivery methods
- Intersectoral resources
- Policy-practice interface
- Ongoing facilitation for duration of course
- Teleconferences/Webinars
- Coaching and Mentoring model
- Intensive, accelerated experience

Program Certificate

Participants who successfully complete the program will receive a certificate from the University of Regina. The certificate has additional value for students whose workplace or association requires ongoing professional development.
