

Saskatchewan Society of Occupational Therapists

Making Everyday Tasks Reachable

The SSOT Office will be closed Dec 21 – Jan 1. SSOT Renewals are due Feb 15, 2013 at 5 pm.

If you have not yet received your renewal package in the mail please contact the SSOT office.

Have you been accepted to present at the National CAOT Conference in 2013?

Saskatchewan Research and Education Fund (SREF) invites you to apply for the National Presentation Award of \$1000 to help cover expenses of the presentation. Please contact Coralie Lennea, Executive Director at ed@ssot.sk.ca for more information.

Overcoming Assistive Device Stigma: Outcomes of a multi-interventional strategy

See the story from Anita Meszaros, Occupational Therapist attached and on the SSOT website.

Are you an Occupational Therapist Interested in Pursuing a Graduate Program at the U of S?

There are a variety of graduate programs that may be of interest to Occupational Therapists depending on your research interest. As an example, the MSc and PhD programs in Health Sciences at the University of Saskatchewan are thesis-based graduate programs for students performing research within any of the clinical departments in the College of Medicine or the School of Physical Therapy. Areas of research are varied and are dependent on the research interests and expertise of the student and their research supervisor. Additionally, these programs offer relevant, centrally managed, mandatory courses that provide research skills, attitudes, and knowledge necessary for any life and health science graduate regardless of the nature of the research project. For information on these programs consult the website below.
