We Want You ... To Apply For This Job!

Full-time Permanent Pediatric Occupational Therapy Position

Milestones Occupational Therapy for Children is a “boutique” Occupational Therapy practice based in Saskatoon. We are small by design—we value balance and flexibility, but are not afraid to roll up our sleeves and do the hard work. We are focused on relationships and believe relationship is the primary agent of change for our clients.

We serve a diverse community of children, youth, caregivers, communities and organizations throughout Saskatchewan who come to us for our skill, knowledge and expertise. The children and youth we serve have differences and diverse needs across all health domains, but we have a particular interest and skill walking alongside individuals who are working through mental health challenges.

We are seeking a motivated Occupational Therapist who wishes to join our team. The ideal candidate will be seeking a **full-time permanent** position, but we will consider candidates who share our values and vision who may be seeking employment on a part-time basis. This position is primarily located in our Saskatoon-based clinical offices; it intermittently involves travelling assessment clinics throughout Saskatchewan.

The ideal candidate is an insightful, self-reflective Occupational Therapist who values working collaboratively within our culture as well as through our partnership with the Prairie Centre for Child Development, where we work with a growing multi-disciplinary team including Registered Doctoral Child Psychologists and Clinical Social Workers. The ideal candidate is eligible for registration with the Saskatchewan Society of Occupational Therapists and holds a valid driver’s license as travel may be required to

drive throughout Saskatoon and to intermittent, short-term travelling assessment clinics in rural areas.

Compensation is competitive, commensurate with experience including extended health benefits.

Although 1-2 years of clinical practice with children and youth is an asset, new graduates who are eager to learn and serve and have life experiences that translate to exceptional personal and clinical skill are also encouraged to apply.

If you feel this opportunity is for you, please reach out to Karen, Milestones Clinical Coordinator at hello@milestonesot.ca or 306-280-8565.

We look forward to hearing from you!

Stephan Bourassa BMT(OT), OT Reg. (Sask), SIPT, NMT.
Owner, Milestones Occupational Therapy for Children.
