

Occupational Therapist – Children North Early Intervention Program La Ronge

Children North Early Intervention Program is a non-profit, pediatric therapy hub in the heart of Northern Saskatchewan with a multicultural demographic. We are contracted by the Saskatchewan Health Authority to provide therapies in Northern SK. Children North supports children (0-5), youth (6-17) and their families with a wide variety of special needs. We specialize in child and youth development and offer a variety of services including psychological assessment and therapy, physical and occupational therapy and speech and language therapy. You will be working closely with a local PT as well as consultative SLP, Pediatrician, ASD specialist and psychologist. Each family has an interventionist assigned for support. Each member of our multi-disciplinary team believes that every child is unique and possesses his or her own individual strengths. We believe in nurturing each child as a whole person and empowering them to understand and be proud of who they are. We are passionate about taking a client and family centered approach to every aspect of the care we provide. We are looking for a self-directed, fun and compassionate individual who is willing to spend 1 week a month in La Ronge, SK. New Grads welcome. We have a fully furnished apartment overlooking the lake for our specialists. This is an independent contractor position.

As a part of the team at Children North ECIP, you can expect the following:

- An opportunity to make a lasting impact in the lives of children, youth and their families
- An open, collaborative, fun and supportive work environment
- Strong leadership that is rooted in diverse professional training and lived experience within the world of disability and special needs parenting
- Administrative Support

Responsibilities:

- Work closely with staff, clients and families to address their needs and goals
- Apply a client and family centered approach to all aspects of care
- Conduct assessments using standardized tools and provide evidence-based interventions
- Design treatment plans based on best practice guidelines and clinical expertise
- Collaborate with our multi-disciplinary professional team as needed to support clients and families
- Able to work independently to manage schedule, therapy and daily tasks
- Remote OT mentorship available upon request

Qualifications:

- Be fun and compassionate
- Registration with Saskatchewan Society of Occupational Therapists
- Excellent assessment and intervention skills
- Excellent interpersonal skills and a willingness to collaborate with multidisciplinary team
- A passion for supporting clients and their families in a way that is empathetic, inclusive, and strengths-based
- Understanding and motivated to work with multicultural clients
- Vulnerable Sector Check
- New grads welcome

Benefits:

- Flexible Hours and Scheduling
- Collaborative and supportive team of professionals
- Support with COVID 19 protocols before and after in person appointments

- Large Pediatric therapy room and sensory room with amazing equipment
- Mutually agreed upon reimbursement for resources and equipment
- Continual support, learning, and room to grow professionally and personally
- Beautiful area of the province located on a large lake with lots to do for the outdoor enthusiast. Our office is across from the lake with many local amenities close by

COVID-19 considerations:

Personal Protective Equipment (PPE) provided.
